

CIEH Level 2 Award in Health and Safety in the Workplace

Suitable for:	All staff members interested in increasing their Health & Safety knowledge
Duration:	1 day
Objectives:	<p>This course covers the vital elements of Health & Safety in any workplace. It offers an awareness of the issues, preventative action and current legislation.</p> <p>The course is certified by the Chartered Institute of Environmental Health.</p>

Outline:

- The Background
- Health & Safety Legislation
- Accident and Ill Health Prevention
- Risk Assessment
- First Aid at Work
- Personal Protective Equipment
- Health, Safety & Welfare
- Work Equipment
- Electricity
- Fire Safety
- Health Hazards
- Substances Hazardous to Health
- Ergonomics & Workstation Design
- Manual Handling
- Noise
- Review
- Multiple Choice Test

The course is tested via a multiple-choice, tick box examination. The completed exam papers are sent to the CIEH for marking and certificates are then returned to ourselves for successful candidates, usually within 10/15 working days. Exam papers are available in a variety of languages or an oral version for anyone who would prefer them. We would need to know around 4 weeks in advance if this is required to allow for delivery.
